

Diving Emergency Management Provider Program

It is a rare event when a dive emergency is a single event. More often than not, separate small problems compound to create a larger problem.

Divers and dive professionals interested in understanding first aid care for dive emergencies can now take the Diving Emergency Management Provider course. This single program integrates the knowledge and skills from several DAN Training Programs into a single eight-hour day. The Diving Emergency Management Provider course includes:

- CPR and First Aid for Scuba Diving Injuries
- Automated External Defibrillators (AEDs) for Scuba Diving
- Neurological Assessment
- Oxygen First Aid for Scuba Diving Injuries
- First Aid for Hazardous Marine Life Injuries
